A Must-See Custom-Built Two-Story Home with Upgrades Galore! This beautiful home features Tigerwood hardwood, travertine, and honed slate flooring, along with 9 ft ceilings throughout that provide ample natural light. The kitchen, plant ledges, and bathrooms are adorned with concrete countertops, while the cabinets are custom-built cherry-stained alder. Stainless steel appliances, including a wall oven and gas cooktop, complete the look. The living room has a cozy gas fireplace, and the den on the main level can double as an additional bedroom. The home is equipped with a double-detached garage (20x25) at the rear with 220 wiring, while the cedar deck with wood rails is perfect for entertaining with the south-facing yard and beautiful outdoor kitchen/BBQ area. The Low E windows offer energy efficiency, and the in-floor heat from the boiler system ensures warmth during colder months. The upper level boasts a mountain view from the primary room and the second bedroom. Additionally, there are three full baths, with the master ensuite featuring a Jacuzzi tub. The yard has mature landscaping, acrylic stucco siding with rundle rock, and a flagstone sidewalk that enhances the curb appeal. The basement is partially finished with drywall completed, with only flooring and finishing touches remaining. The space is ready for a good-sized bedroom, living area, and a half bath. It is also plumbed for in-floor heat and is ready to be hooked up. Located near downtown, all amenities, and a quick commute to NW Calgary, this home is a must-see to appreciate all the attention to detail. (id:6769)
