

1359 Cabernet Way West Kelowna British Columbia

\$949,000

A corner lot with a view most buyers only dream about: Okanagan Lake stretching south toward Peachland, right from your future front door. This one stands out for a reason most lots in the area can't match: it's large enough, and zoned, to build up to 3 storeys, meaning the views only get better. Electricity, gas, and water are already at the lot line, with sewer available, so the heavy lifting is done before you even break ground. Room for a pool, carriage home, ready for your ideas! Lakeview Heights is the kind of neighbourhood that sells itself: quiet, centrally located, family-friendly, and surrounded by homes people already invested serious money to build, or to buy. You're minutes from the beach, world-class wineries, state of the art golf courses, everything the Okanagan promises. Whether you're a builder looking at the numbers or a family looking at forever; this lot gives you the room, the services, and the view to make it real. (id:6769)
