

## 2045 Trans Canada Highway Kamloops British Columbia

**\$499,500**

Gear Jammers Truck and Aluminum Polishing established approximately 17 years with a strong reputation, exceptional customer service, and valued repeat clientele. Specializing in high quality aluminum polishing and detailing for large equipment and highway trucks, including both exterior and interior work, plus marine services including aluminum hull vessels. This is a niche, skill based service where customers return for consistent results that protect appearance and elevate presentation for equipment that must look its best on the road, at the yard, and on the water. Kamloops is a growing centre of roughly 110,000 people and is widely recognized as a major transportation hub for BC's Interior. Positioned on the main corridor into the city, this location offers steady drive by exposure and convenient access for commercial vehicles, owner operators, fleets, RV traffic, industrial clients, and travelling customers moving between the Coast, the Interior, Alberta, and northern routes. The geography works in your favour with constant truck traffic and a wide regional catchment that supports ongoing demand. Valuable long term employees add stability and depth, making this a practical next venture for an owner operator or investor seeking an established operation with proven systems and room to grow commercial accounts, fleet programs, and marine polishing. Financial books and supporting information are available for review upon completion of an NDA. (id:6769)
