

6220 172 Street 13 Edmonton AB

\$199,000

You won't find a 1200 sqft house for this price anywhere else (that you actually want to live)! What more could you want in a spacious, townhouse end unit? This quiet condo complex is located amongst all the amenities you need - and the ones you didn't even know you needed - including schools, playgrounds, shopping, dining, gas, & transit. Park your car right in front of your front door & walk into a welcoming, functional foyer with a convenient 2-piece bath nearby. The kitchen is bright with lots of cupboard space & flows nicely into the very spacious dining rm. The living rm is generous enough to divide if you need a study or home office. The big, bright window & sliding door let in a ton of natural light from your sunny south-facing backyard. Upstairs are 3 bedrooms and a 4-pce bath. The basement is a floor hockey star's dream come true, but it would make a great storage space, or you could finish it to add even more value to your smart purchase. Move right in or make it your own, the choice is yours.
