

## 620 Cardiac Climb Rd Tahsis BC

\$225,000

This quaint cottage in the hills of Tahsis is adorable and something to see for sure. Built in 1952 this house started out as a 2 level 3 bedroom 1 bathroom house with 1 of those bedrooms on the main level and the bathroom has a relaxing whirlpool tub. The current owners raised the house to take advantage of the peek-a-boo views of the ocean, so now there is an unfinished basement workshop to putter in. Beautiful fir hardwood floors throughout, wood frame windows, metal roof, WETT certified wood stove to keep you warm and rustic features all add to the charm of this home. Sit out on the deck and enjoy the peaceful surroundings or relax in the backyard which is a private piece of wooded paradise waiting for your unique touch. Tahsis is located on the West Coast of Vancouver Island and is a premier ecotourism destination with unparalleled outdoor recreation, including sport fishing, hiking, caving, diving and beautiful scenery around every corner. Furniture is negotiable
