Introducing a home that feels as good as it looks. Tucked into a quiet cul-de-sac in Oxford, this 2005 bi-level has been thoughtfully maintained and updated, offering the perfect blend of comfort and function. Step inside to a sunlit living room anchored by a gas fireplace and framed by a large picture window with views into the beautifully sized backyard. With two bedrooms on the main level and a private primary bedroom on the second floor, the layout provides space and flexibility for families of different sizes. Downstairs, big windows and an open design make the lower level feel bright, complete with a pellet stove that adds warmth and character. A double-attached garage, a generous yard, and proximity to parks, schools, and everyday amenities complete the picture. This is the kind of home you can settle into from day one and grow with for years to come.
