Beautifully updated 2 storey home to make your own. This home has great floor to ceiling windows & natural light. Enjoy the double attached garage and the back yard and deck year round! With an open floor concept it is great for entertaining or simply enjoying the feel of a naturally bright home. The main floor has been completely done in beautiful tile and modern colours. This kitchen and dining room are a chef's dream! From the maple cabinets, and granite counters, to the Stainless appliances and oversized island for all of your meal prep. The master bedroom is a great size and has a walk through closet to the 4 piece bathroom with soaker tub. There are 2 other rooms upstairs and a loft like staircase and hallway that overlooks the main floor living room. On top of that the basement is partial finished, a good size, and has a large den that would accommodate any home office. There is plenty of storage as well because the laundry is on the upper floor next to the bedrooms. This is a Must See! (id:6769)
