This one has a little more personality than your average 4-bedroom! Step inside and you'll find 4 bedrooms, 2.5 bathrooms, charming arched entryways and an upgraded kitchen featuring Kitchen Craft cabinetry. Three solar tubes bring natural light into the kitchen, staircase and upper bathroom, because a little extra sunshine never hurts. Upstairs, the spacious primary suite comes with an ensuite built for unwinding, complete with a jetted soaker tub, corner shower and plenty of storage. Out back is where this home really shines: a large yard anchored by an impressive 17' x 28' cedar deck, plus two garden sheds for all the extras. Add in triple-pane windows, updated exterior doors, shingles approximately seven years old and a heated garage, and you've got a home with plenty of practical upgrades already checked off. Big backyard, big deck, plenty of space, and definitely not short on character. (id:6769)
