Can you say UNIQUE? This 1800 sq foot custom built log home is definitely that! Main floor features a kitchen with a corner pantry and eat up bar, large dining area, living room with a wood stove, master bedroom with a four piece ensuite, and a two piece powder room. Upper level has a family room with a bridge that stretches over the main floor to a sitting area that over looks the front yard, office, and a second bedroom. Lower level is partially finished with a laundry area, two more bedrooms, Rec room area, four piece bathroom, and a bonus area. Outside is a total relaxation with a covered deck on both sides of the home, another covered deck coming off the upper level, a fire pit area, and a two car garage. Did I happen to mention this home is minutes walk from the shore on Moose Lake.
