What a delight this home is !!!! Its very well kept and has a great floor plan with a convenient office/den at the front, great room style kitchen with tons of countertop space, patio doors to the large deck and yard plus a cozy fireplace family room. With recent flooring done everything seems fresh and clean plus the the upstairs has 3 fine family bedrooms including a Master with walk-in closet and full en-suite for plenty of room to grow. Moving downstairs you will notice a rare wide open expanse where the builder designed it properly to accommodate 2 extra bedrooms and a big bathroom if need be. Some other bonuses are the double attached garage, convenient laundry area and of course the GREAT LOCATION . Check on availability (id:6769)
