

## 13836 143 Avenue Edmonton AB

\$599,900

Absolutely amazing home built by Dolce Vita Homes (Mike Holmes approved builder). The finishings and layout are perfect! A very modern home with all the bells and whistles. The stair case is both unique and breath taking. A balcony off of the bonus room looking out to the green space, that the property backs on to. Artificial grass and built in fire pit area along with a good size deck. Saving the best for last, the Master bedroom and ensuite are incredible, and include a two sided fireplace, double sink on opposite sides, two walk in closets, glass and tile shower and a huge tub backing on to the fire place. The home is like new and barely lived in with the owner being one individual with no children, pets or smoking. An absolute must see!
