The Artemis is a well-designed 4-bedroom home backing onto a future park and school, with 200AMP service and a separate side entry. It features a double extended garage with floor drain, hot/cold taps, 9' ceilings, LVP flooring, and recessed lighting throughout the main floor. The main level offers a spacious foyer, sitting room, bedroom, full 3-piece bath, and a mudroom that connects the garage to the kitchen via a spice kitchen. The open-concept kitchen, nook, and great room (with a 17' ceiling and fireplace) are ideal for family living. The kitchen includes quartz countertops, a large island, Silgranit sink, tiled backsplash, chimney hood fan, and full-height Thermofoil cabinets with soft-close doors. Upstairs features two primary suites--each with walk-in showers, double sinks, and walk-in closets--plus a bonus room, laundry area, third full bath, and another bedroom with walk-in closet. Extras include an appliance package, upgraded railings and lighting, rough-in plumbing, and additional side windows. (id:6769)
