This home features some great upgrades and an amazing outdoor space. There is central AC, an insulated garage that fits a truck, and backyard that has a fantastic sunken gas fire pit area. The main floor has an open concept design, while still having clearly defined spaces with the kitchen in the centre. The kitchen has a TON of cabinet space, a gas range, quartz counters, a centre island, and a nook that is perfect for a coffee station or bar. There is also a half bath and mud room near the back door. Upstairs you'll find the primary suite, complete with a combined walk in closet and spa like suite ensuite. Down the hall is a loft (that could easily be made into another bedroom), another bedroom and another full bath. This home is a MUST SEE! (id:6769)
