Wow, a home like this is not one you always see for sale and is surely going to sell quick. This home is special with its unique floorplan and great pride of ownership both inside and out that should have Buyers rushing to see it before its gone. Come inside and you are immediately welcomed by a large foyer that opens up to a sunken living room with massive windows. Beautiful Hardwood floors flow throughout the main floor of this house with slate tiles in the kitchen. Renovated kitchen gives this home a modern open floor plan and has a ton of storage with granite countertops and stainless steel appliances. Good size bedrooms w a master bedroom that has a two piece ensuite. Go downstairs and your smile will grow as the basement has been completely redone and offers you a large rec room, 4th bedroom and a 3 piece bath(shower is plumbed but not finished). Plus new windows throughout. The rear yard is just as impressive with its size & a 30x24 heated, oversize garage plus a rear gate if more storage is needed (id:6769)
