\$700,000

This incredible Homes by Avi Hemsworth model has over \$100K IN UPGRADES, and it shows in the details that usually get overlooked. The main floor is defined by a dual-kitchen configuration, featuring a secondary SPICE KITCHEN that keeps the heavy lifting of meal prep out of sight while the primary kitchen remains the focal point for hosting. An office provides a dedicated workspace, while the great room uses a soaring window wall to bring the scale of the WALKOUT and the POND VIEWS inside. Upstairs, the primary retreat is finished with a customized ensuite plus all the bedrooms on the upper floor have walk in closets! The professionally developed WALKOUT BASEMENT with 9 FOOT CEILINGS adds a recreation room, a fourth bedroom, and a full bathroom, making the total living space as functional as it is polished. This level leads to a yard positioned to catch the best of the evening light and the most incredible sunsets over the water, while the upper DECK offers a fantastic vantage point for the same view.
