

3792 Westside Road West Kelowna

\$4,900,000

WATERFRONT ESTATE with SUBDIVISION POTENTIAL - One of the last great undeveloped estate properties available in the Okanagan. Set on the West side of Okanagan Lake this 24 acre lakefront property is entirely private and surrounded by a mature forest of fir and pine trees. There is over 1400' of small pebble beachfront that wraps the gentle prominence of the land and many spots gain easy access to the waters edge from the main building site. Only 15 minutes to the WR Bennett bridge, amenities and countless wineries make for an ideal location from quiet year round enjoyment. There are multiple building sites that offer expansive views across to mountains, Okanagan Lake and vineyards. This is a property where measurements are not in acres or lake frontage but in years of memories made and laughter shared.
