Cute, updated heritage home on a large lot! This 2 bed, 2 bath home sits high up on a 0.356 flat lot, offering panoramic views of Greenwood and the surrounding countryside. The main floor includes the master bedroom with a full ensuite bathroom, large living room, nook/den, kitchen, laundry, and a second full bathroom, ideal if single level living is important. The upstairs has an additional large bedroom and a good-sized landing area that would make an ideal art space, music room, or maybe a spot to put an exercise bike and running machine. The house has been extensively renovated with electrical, plumbing, insulation and heating all upgraded to meet modern standards. The large garden area is a horticulturists dream. One section has already been deer fenced, and there are a wide range of trees and shrubs already planted. In addition, the gravel driveway offers ample parking and has plenty of room for an R.V., trailer, or boat. The large cellar is accessed from the outside of the home and offers ample additional storage space. To fully explore the house, be sure to check out the Multimedia link (Realtor.ca)/Virtual Tour link in the listing for a full virtual tour, 3D house model and floor plan. (id:6769)
