Here's the stunning, quality-built home you've been looking for, tucked away in a private and charming forest setting, just minutes from the beautiful City of Nelson! This home's design offers full living on one level, with your master bedroom, walk-in closet, laundry room, and a full bathroom with a jetted tub which is accessible from both the main hallway and the walk-in closet. The open-concept kitchen and dining room design includes quartz countertops, a breakfast bar and alder wood cabinets, which complement the fir posts, white pine ceiling, and all the slate and stone work. In fact, there are a total of seven types of wood in this custom-built home! The spacious living room sitting on maple hardwood features a beautiful rock fireplace for you and your family to cozy up to, and the home even has a handy central vacuum system for your fur babies! Upstairs in the loft area, you'll find a lovely seating area, home office, another full bathroom, and two additional bedrooms. Outside, you have a covered walkway, RV parking, irrigation in the low-maintenance perennial gardens, a 15x23 insulated outbuilding equipped with electrical and another fireplace, a spacious deck with a hot tub, and a brand-new outdoor kitchen, all accompanied by the soothing sounds of Duhamel Creek just below. Don't wait on this beauty! Call your REALTOR(R) and book a showing today. (id:6769)
