So much view, relax to take in the glamorous style. Specialized outdoor living preplanned with nature in mind. From 1150 sq. ft. of decks overlooking the 8th Fairway, behold the lake as a backdrop. Expansive windows enhance vaulted ceilings, craftsman woodwork, rich flooring and elegant lighting. The kitchen sparkles with subway tile and stainless appliances. Master wing, with its Boho vibe, shows off the swing on the private deck. The floorplan is suited to large gatherings near the feature fireplace. Guests can find private spaces over three floors that welcome and soothe the soul. Should they keep different hours they have their own kitchen. Move to the country and expect a quality of home design and decor that you can be proud of. (id:6769)
