

Whitehorse Yukon

\$45

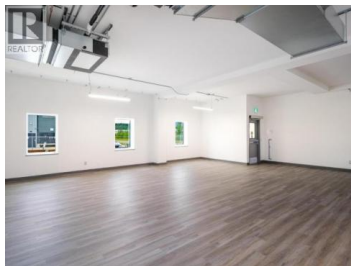

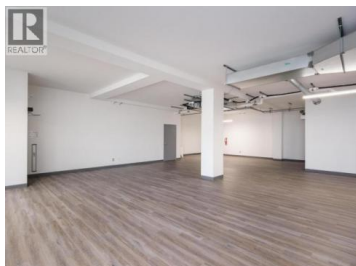

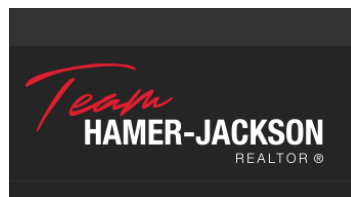

CNLP completed construction of this centrally located building in March 2026. This steel frame structure offers high ceilings and lots of open space which allows for flexibility in layout and space design. Views from the second floor look toward the Yukon River wetlands and Grey Mountain. With 2545 sq ft on ground floor, 2735 sq ft on 2nd floor and attached garage, this could be just what you need! (id:6769)
