

White City Saskatchewan

\$734,800

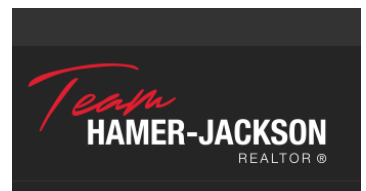

Note: This home is currently under construction and the photos provided are for REFERENCE only, some are virtual renderings and some colors may vary. Welcome to the Arnica. This stunning 2-storey home, offering 2,218 sq. ft., is a brand-new build by Laurel Homes located in the up and coming Royal Park subdivision of White City. This home showcases a modern dark-palette design paired with elevated interior selections throughout. The main floor features an open-concept layout with a stylish kitchen complete with flat-slab cabinetry, marble-quartz countertops, a walk-in pantry, matte-black fixtures, and included appliances: fridge, stove, microwave hood fan, and built-in dishwasher. The great room is anchored by a sleek, contemporary fireplace, while the dining area provides direct access to the rear deck comprised of composite decking. A 2-pc bathroom and a versatile den—complete the main level. Upstairs, a spacious bonus room separates the secondary bedrooms from the serene primary suite, which includes a walk-in closet and a beautifully appointed 5-pc ensuite with quartz counters, a stand up shower, and matte-black fixtures. A convenient upper-floor laundry room and an additional 4-pc bathroom complete the 2nd level. The basement is unfinished, equipped with a sump pump and roughed-in bathroom plumbing—ready for future development. Optional basement development by the build...
