Zoned for tourist accommodation! This property already has a gorgeous log home on it but with C2 zoning your options are plentiful: campground, convenience store, tourist accommodations, recreation facility, restaurant just to list a few! This 3.35acre property is on a mountain side but has a few plateau areas offering additional building sites if required. The solid wrap around deck on the log home is your outdoor sanctuary for peaceful enjoyment or for entertaining as it features stunning mountain views. Conveniently located right off Hwy 16, 10 minutes north of Valemount, an hour west of Jasper and only a 5 minute walk to the Fraser River.
