Not all condos are created equal - and this one decided to break the mold entirely. With over 1,000 sq. ft. of space, soaring ceilings, and a design that feels more townhouse than typical high-rise unit, this home blends style, comfort, and individuality. The six-figure renovation delivers a fresh, move-in-ready interior that shows like a magazine spread. New high-end hardwood flooring, quartz countertops with a custom quartz backsplash, all new light fixtures, a stunning floor to ceiling fireplace surrounded by a custom tile feature wall, an entertainer's dream bar, a custom walk in closet, and wireless blackout shades are just some of the features that truly set this home apart from the rest! The open loft layout flows effortlessly to a massive private patio with its own entrance - ideal for everything from coffee catch-ups to evening wine with friends. Inside, the feeling of openness is matched by modern finishes and thoughtful details. Are you a pet lover? Dogs and cats are welcome with dogs up to 60lbs allowed here! The building itself spoils you with a rooftop pool, hot tub, and sauna, a gym, guest suites, and even a conference room, so your needs are covered without ever stepping outside. But when you do, you're just steps to downtown, groceries, transit, and all the best city living offers - without the constant buzz on your doorstep. Places like #124-1495 Graham don...
