Penticton Apex

$1,725,000

Take in sweeping views of Apex Mountain's ski runs, evergreen forest and chalet rooftops from 124 Creekview Rd in Penticton. Two tiers of windows frame the ridgeline and fill the great room with natural light, while a vaulted wood ceiling, exposed beams and a floor-to-ceiling stone fireplace give this Apex Mountain Resort home its classic chalet character. Watch snow fall from beside the fire or take your morning coffee out to the raised deck and see the light move across the slopes. The open kitchen flows into the dining and living areas, with stainless steel appliances, warm wood cabinetry and an island with a prep sink and bar seating. Upstairs, the loft overlooks the great room and offers space for billiards, movie nights and fireside lounging. A cozy dining nook with a ladder-access bunk above it opens onto the deck through a glass overhead door. A second full kitchen and additional living and dining area give visiting family and friends room to spread out. The tiled mudroom has benches and hooks for boots and winter gear, and a bathroom features a soaking tub and separate glass enclosed shower. Spend warmer evenings dining on the tree-lined patio or cap off a day on the slopes with a soak in the privacy-screened outdoor hot tub. Just off the main kitchen, a separate laundry area with open shelving keeps essentials handy. Nearby Apex Village makes it easy to grab a bite...
