

1250 COPPER Road Oliver British Columbia

Oliver

\$641,000

The extras are already done—and they're good ones. Built in 2024 by an independent builder, this three-bedroom, two-bathroom rancher in Oliver's Copper Ridge has nearly \$50,000 in improvements added since construction. Wait until you see the custom patio cover! Freestanding and cleverly designed to overlap the roof without attaching to the house, it keeps the deck sheltered and dry. Add the sun shades, and you've got a spot for slow morning coffees, dinner outside, or one more chapter before heading in. Inside, the bright kitchen pairs white cabinetry with stainless steel appliances, plenty of storage, and an island where company can pull up a chair while you cook. The open layout keeps the kitchen, dining, and living areas connected, with sliding doors leading to the fenced backyard. The primary bedroom has a walk-in closet and an ensuite with double sinks and a generous shower. Two more bedrooms leave room for guests, work, or whatever you love doing. The improvements are as practical as they are good-looking: custom window coverings, entertainment and foyer cabinetry, an entry bench with a custom cushion, upgraded bedroom carpeting, and wood flooring in the den. A water softener, main-floor laundry, and an attached single garage with an epoxy floor make everyday life a little easier. Unpack, put the coffee on, and find your favourite spot. (id:6769)
