

Whitehorse Yukon

\$799,900

Big on space. Built for everyday life. Offering 2,495 sqft in Whistle Bend, 129 Sybil Circle pairs energy-efficient construction with a family-focused layout. The main floor flows easily between the kitchen, dining, and living areas, with maple hardwood, character lino flooring, and a wood stove adding warmth and personality. Fresh white cabinetry gives the kitchen and surrounding living space a bright, clean, updated look, while generous proportions leave plenty of room to cook, connect, and entertain. Practical front and rear entries, 2pc bathroom, and laundry/utility room complete the main level. Upstairs, the primary bedroom includes a walk-through closet and private ensuite, accompanied by three secondary bedrooms, a full bathroom, and a versatile second living area. The south-facing fenced yard offers a large patio area, extended concrete driveway, additional parking access to the garage. "Super Green" construction, serious space and efficiency, with room to grow. (id:6769)
