

796 Kuipers Crescent 13 Kelowna British Columbia

Upper Mission

\$1,188,000

Kuipers Peak Park is renowned for some of the most awe inspiring views in all of Canada. This boutique community is adjacent to the park so you can enjoy hours of hiking as you take in that iconic view! Imagine relaxing on your deck at night with neighbours watching the sun set over the mountains and all of the glittering lights reflecting off the lake. This home is literally like new. Our photos show two sets of furniture in the home. You choose; a modern clean look or relaxed elegance.. How would you furnish? This is the largest home in the development & one of a few with views of the Okanagan Lake, a masterpiece painted by nature just for you! This unit was upgraded this unit significantly at the time of building(details available upon request.) So the inside has a custom fee and it is (almost) as beautiful as the surrounding nature. All the extra practical touches and additional decor are the finishing touches on a house you will be proud to call home. A single family home with these finishes and THAT view would cost double. It is a bright open floor plan that exudes quality and style. You are a walk from the new Village of Upper Mission with lots of exciting new stores, coffee shops, stores and services await. Just a few minutes from the beach, wineries and more restaurants. Plus the adventure & natural beauty of Kuipers Peak is right outside your gate! You will love...
