Dreaming of an Updated House on a HUGE LOT? Located across the street from a park, this 4-bed Bi-Level has had some significant updates, including new flooring, paint, lighting and fixtures, a renovated bathroom, some new appliances, a new deck and patio, and an upgrade to the garage including heat and 220v. Entertaining is a breeze, thanks to a 600 sq ft addition. The large dining room and living rooms provide plenty of space for family gatherings. The primary has a custom closet system, and the 4-pc main bath and 2nd Bed have been updated. Downstairs features a large family room, 3-pc bath, 3rd & 4th bedrooms and a large laundry with access to the back yard. A second staircase leads to a retro rec room with bar. A brand new wrap-around deck is accessed by the back entrance and sliding doors from the living room. A new patio area sits by the walkout bsmt access. Not only does this property include a finished & heated double garage, it has a parking pad that can accommodate 4 vehicles, trailers or an RV! (id:6769)
