

## 306 Creekview Road 14 Apex Mountain British Columbia

Penticton Apex

**\$778,000**

Ski season is coming and this Apex Mountain townhome is built for real mountain living, starting with a full garage over 33 feet deep, room for a sled, ATV, or truck plus a mudroom, laundry, den, and 2 piece bath on the entry level, so gear and boots never have to touch the living space upstairs. The main floor is where this home really shines: an open living, dining, and kitchen layout under vaulted wood beam ceilings, anchored by a stone faced fireplace that makes coming in from a day on the hill feel like it should. The kitchen is fully equipped with stainless appliances and a large island. Upstairs, both bedrooms come with their own private ensuite. The primary suite offering a full 4-piece bath, while the second bedroom has its own 3-piece ensuite just steps away. Above it all, a loft with built-in bunk beds gives kids, guests, or a full ski crew a place of their own, without ever crowding the main living space. With approximately 2,200 sq ft spread across this thoughtfully designed home, it accommodates everything from a quiet solo retreat to a full family gathering for the season, and with Apex Mountain just steps from the door, it's a rare opportunity to secure a true ski-in property for the season ahead.
