

Whitehorse Yukon

\$579,900

Cute as a button in Crestview, backing onto the greenbelt, move-in ready 2-bed, 1.5-bath plus a home office or den. The features only stack up: 7,954 sq ft lot, with space beside the house to access the backyard for toy storage or to build a shop one day! Greeting you at the front door is a coveted arctic entry with space to organize jackets and boots, then stepping into the surprisingly large living room that is open to the eat-in kitchen with lots of cabinetry and countertop space plus a walk-in pantry. As amazing as this home is, it just gets better; a feature that will capture your imagination is the oversized rear deck for relaxing and entertaining friends. Both bathrooms have been updated with new fixtures. The master bedroom overlooks the backyard. The 2nd bedroom can accommodate a queen bed, and the home office provides a private oasis from the main home. Lots of storage available in a hidden space above the linen closet. You will love it.
