Are you looking for a big workshop with all the heat, power and size you need, but every home you find with all this has a huge expensive house you don't need? Problem solved! This is your DREAM workshop, and it comes with a really cute home and a third building, all on a massive lot with great upside for development potential in the future. Just a few years ago, developers would have paid much more than our asking price just for the home and lot! The house is a well-laid-out with updates completed by the current owners to make it a move-in ready property you can be proud to call home! The floor plan is very functional with a good flow, although with a shop like THIS, you may not spend much time in the house! Call for full details or to book a showing. This is a truly unique offering. Don't miss it! (id:6769)
