This is what smart condo living looks like! Welcome to Magnolia Gardens -- where lifestyle, value, and location align. This 2-bedroom, 2-bath condo offers 1,087 sq. ft. of well-designed living in a community that residents genuinely love -- and it shows. The open-concept layout is bright and functional, anchored by a gas fireplace that adds warmth and character to the main living space. A fully enclosed sunroom expands your usable square footage and offers flexibility as a sitting area, home office, or hobby space. This is low-maintenance living done right -- spacious, practical, and comfortable. Secure underground parking, additional storage, and access to one of the area's most social and well-run complexes elevate this offering well beyond the average condo. Residents enjoy a clubhouse, guest suites, workshop, fitness room, bike storage, car wash bay, and outdoor BBQ patio -- all within a walkable, amenity-rich location close to shopping, dining, parks, transit, and recreation. The strata is proactive and financially healthy, with a strong contingency reserve and long-term planning already in place -- a key differentiator and a major win for buyers focused on stability and peace of mind. Whether you're downsizing, investing, or entering the market, this is a smart acquisition in a community that continues to perform. (id:6769)
