Completely turn- key! Your Okanagan getaway, with room for everyone. This spacious 3 bedroom + den, 2 bathroom home offers bright, inviting living space within the sought-after La Casa Lakeside Resort community. Thoughtfully designed across three levels, the floor plan tells only part of the story--there's even more to this home than meets the eye. Ask us about the additional spaces & possibilities that make this property especially unique. The main level is made for gathering, with an open kitchen, dining & living area surrounded by windows and anchored by a cozy fireplace. French doors extend the living space onto an incredible 14' x 32' deck where lake views provide the backdrop for morning coffee, outdoor dinners & long Okanagan evenings. A bedroom & full bathroom on this level add excellent flexibility. Upstairs are two additional bedrooms, including a spacious retreat with walk-in closet, plus another full bathroom. The lower level adds exceptional versatility with a single garage currently converted into a games room & laundry--plenty of room to spread out after a day at the lake. At La Casa, every day can feel like a vacation with access to the beach, pools, hot tubs, marina, tennis & pickleball courts, mini golf, playgrounds & endless opportunities to get outside. Spend the morning on Okanagan Lake, the afternoon poolside & the evening gathered on your private deck....
