

2201 Lilloet Crescent Kelowna British Columbia

Dilworth Mountain

\$948,000

DILWORTH MOUNTAIN PERFECTION! This 4-bed, 3-bath, LAKEVIEW walkout rancher is the kind of listing that doesn't come around often. A functional layout and a complete mechanical upgrade DONE! Open concept living with floor-to-ceiling windows, a cozy fireplace and a flow straight through to the dining room, breakfast nook, and a large deck for taking it all in. This is where mornings start slow and evenings run long. The kitchen keeps pace with newer stainless steel appliances ready for real cooking, real entertaining, real life. And when the day winds down, retreat to a primary suite that feels like a private spa: jetted tub, oversized walk-in closet, ensuite bliss. The lower level features two more bedrooms and a huge open family room anchored by its own gas fireplace. Separate entrance here creates instant suite potential for extended family or rental income. Handy homeowners take note: a huge workshop with deep storage shelving is waiting for your next project. Extra storage in the shed on the lower level. Attached double garage with oversized driveway. New hi-eff furnace (2019), A/C (2018), roof (2016), HWT 2026. Poly B fully replaced. Homes like this, priced like this on Dilworth Mountain don't last long. Book your showing before it's gone.
