Glenmore

\$3,999,000

The Hideaway -- Where Privacy, Nature, and City Life Meet Offered at \$3.999M. The Hideaway delivers what may be the most breathtaking view in the entire Okanagan Valley -- full stop. Bordered by untouched nature and backing directly onto one of Kelowna's most scenic and sought-after parks, this property offers rare backyard privacy with nothing but forest and lake beyond. Inside, more than 5,700 square feet unfolds across five levels of thoughtful design, natural light, and effortless living. At its heart, a dramatic 26-foot wall of glass transforms the Okanagan into living art, placing the lake and valley permanently on display. Every space flows naturally into the next -- from the chef's kitchen to the gym, the terrace to the putting green, the games room to the pool deck -- designed for entertaining, relaxation, and the quiet luxury of total privacy when desired. A new standout feature is one of Kelowna's most stunning private saunas, perfectly positioned to capture panoramic lake views, creating a spa-like retreat rarely found in residential homes. And while it feels worlds away, downtown Kelowna is just ten minutes from your door. The Hideaway isn't simply a home -- it's an experience. One that must be seen, felt, and lived to be fully appreciated. Enjoy the video. (id:6769)
