Truly one of a kind—this incredibly private home feels like a tree fort tucked into the landscape, set on a remarkable .68-acre property with room to live, play & entertain. Mature trees surround the home while expansive lawns, gardens, a swimming pool, hot tub & multiple outdoor living areas create an exceptional backyard for kids, pets, summer gatherings & quiet afternoons outside. Covered decks stretch along the home, overlooking the greenery and extending everyday living into the trees. Inside, the versatile split-level design is filled with personality. Warm wood ceilings, exposed beams & a substantial stone fireplace bring character to the bright principal living spaces, while large windows connect nearly every room to the surrounding landscape. The completely new kitchen feels fresh & modern with new cabinetry, granite countertops with waterfall edge, oversized island, tile backsplash & new appliances. Extensive improvements continue throughout with new laminate flooring, baseboards & trim, fresh paint, updated lighting & ceiling fans, 2 new heat pump systems with individual room units & an upgraded electrical panel. A private studio with its own exterior entrance & renovated bathroom is brilliantly suited to a home-based business, wellness practice, creative studio or dedicated workspace. Outside, established landscaping is complemented by garden space, peach & appl...
