The basement offers a 2 bedroom suite which is instant income to help with the mortgage or a space for multi generational family living. Attached to the home is a single car garage, great for the vehicles, toys or some extra storage space. Ample parking, with room to create some more if you wanted. Furnace and hot water tank were each updated in the last few years. Mature trees surround this home and yard where there is room for the kids and pets, a backyard patio for relaxing around a fire with family and friends and a front porch to enjoy a morning coffee or evening beverage after a long day. Ready to move in and enjoy, but also offering opportunities to create your own spaces and add your own finishing touches inside and out, building sweat equity but more importantly turning this house, into your new home.
