

2930 ELLINGTON Court Prince George British Columbia
\$1,150,000

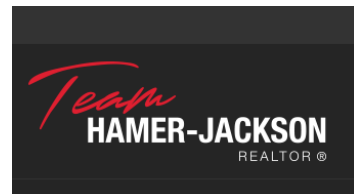

Step into a home where design and efficiency work in perfect harmony. At its heart, a 7.2 kWh solar array generates clean power on site -- cutting hydro costs and adding lasting value year after year. Walls of windows and dramatic vaulted ceilings draw natural light deep into the open-concept main floor, where a polished, sophisticated interior sets the tone for elevated everyday living. Thoughtful design continues throughout, with finishes and details chosen to balance beauty and function at every turn. Stay comfortable in any season with a high-velocity, dual-zone furnace and central air conditioning, while EV chargers in the heated triple-car garage and a double driveway give you space and versatility to match your lifestyle. Offering five bedrooms, 4.5 bathrooms and a legal suite that adds flexibility and income potential, this is a truly one-of-a-kind home that delivers on style, smarts and comfort in equal measure -- a residence unlike any other, where your next chapter is ready to begin.
