

299 GORDONHORN Crescent Kamloops British Columbia
 Sahali
\$789,900

Set on a rare 0.30 acre lot backing onto green space, this Sahali home offers a level of outdoor space that's hard to find within the city. The main floor is bright and welcoming, with oak floors through the living area and a large front window that brings in natural light and open views. The kitchen has been updated with stainless steel appliances, a fridge water line, and a clean, modern backsplash, flowing easily into the dining and living spaces. Two bedrooms and an updated main bathroom with a jetted tub complete the upper level. Downstairs offers flexibility with two additional bedrooms, a spacious rec room with new carpet, dedicated laundry, and a workshop area that works well for storage or projects. Recent upgrades include a new furnace and heat pump in 2024. Outside, the covered deck extends your living space while the tiered backyard with irrigation opens onto green space. There is also a large gated, irrigated garden area for those looking to grow and use the space. Located in a well established Sahali neighbourhood close to schools, shopping, and amenities, this is a solid opportunity to secure a home with space both inside and out. (id:6769)
