

Whitehorse Yukon
\$769,900

A solid, well-kept 4-bedroom home designed for real life--offering the space and features that truly matter. All four bedrooms, along with the laundry room, are conveniently located on the upper floor, creating a functional layout for busy households. The main living area includes a kitchen with walk-in pantry for everyday convenience, while a pellet stove adds a cozy and cost-efficient secondary heat source. This is a home that focuses on practicality, low maintenance, and comfortable living without unnecessary extras. Set on a sought-after green street, you'll enjoy a quiet, park-like setting with no vehicles blocking access. Outside, there's room for everything with RV parking, a double concrete driveway, and a full attached garage. A smart choice for buyers who value function, space, and a home that just works.
