

Beautiful, functional, and spacious! WOW--this is a property you'll be proud to call home. With recently updated lighting, decor, kitchen, bathrooms and flooring, it truly feels like a brand-new home. PLUS, with a new on-demand hot water system and recently replaced heating, cooling, and roof, this home offers the peace of mind of new construction too! The three bedrooms upstairs, plus a fourth bedroom downstairs, provide your family with the flexibility and functionality of a single-family home--at a much lower price point. The floor plan gives you space to live, work, and play. You'll appreciate the thoughtful layout, accentuated by practical design choices and stylish decor, creating a truly unique and beautiful living space. Step outside and you'll find parks for walking your dog, coffee shops, great restaurants, and plenty of places to shop--all within walking distance. But no matter how far you wander, you'll always yearn to return home. Relax on the back deck, read a book by the fire, or enjoy a movie in your very own theatre room. This is a quality home that offers a high quality of life. Floor plans and details of the extensive renovations are available upon request--but to truly appreciate this home, you need to step inside and experience the space for yourself. Don't wait!
