

384 Arrowstone Drive Kamloops British Columbia

Sahali

\$859,000

Some homes have a backyard. This one has a grand piano pool. 384 Arrowstone Drive sits on a fully fenced 8,419 sq ft lot in Sahali, and the yard makes its case immediately -- a heated grand piano shaped inground pool with diving board, a hot tub, and a patio built for using both. Professionally maintained, with a glass filter, robotic cleaner and automatic filler keeping upkeep minimal. Synthetic turf front and back means no mowing and no watering, with inground sprinklers left in place should a future owner want grass again. RV parking, a garage, and room for a shop. Inside, 2,674 sq ft across two levels -- a 1969 home brought thoroughly up to date. Electrical upgraded to 200 amp with a new panel, supporting a Tesla charger in the garage and wifi-enabled dimmable lighting with voice control. Popcorn ceilings removed, upper floor freshly painted. The Living Kitchens design features granite counters, eating bar, built-in dining cabinetry, heated tile floors and all new appliances. The living room carries hardwood and a striking rock fireplace. Three bedrooms up, including a primary with a wall of closets and updated ensuite -- custom shower, heated tile. The lower level holds a fourth bedroom, updated three-piece bath, den and large rec room, with suite potential and TRU minutes away. Also updated: smoke detectors, motion lighting, garage door opener and Leaf Filter gutters. ...
