

4139 Wallace Hill Road Kelowna British Columbia

South East Kelowna

\$1,975,000

Where Acreage Meets Artistry, experience the quintessential Okanagan lifestyle on this masterfully curated 2.54-acre estate. Free from ALR restrictions and home to a burgeoning Christmas tree farm, this property offers a rare duality: the profound stillness of a rural retreat paired with the effortless convenience of city proximity. The residence itself is a study in modern warmth. Fully renovated and featuring a private in-law suite, the home centers around a dramatic sunken living room. Here, vaulted wood-plank ceilings and a floor-to-ceiling stone fireplace create a tactile, high-design focal point. Upstairs, the primary sanctuary offers a refined 4-piece ensuite and a walk-in closet. The exterior is an entertainer's masterclass. Spend your summers poolside on the expansive concrete terrace, decompress in the pergola-shaded hot tub, or host year-round in the protected outdoor lounge. For the collector and the craftsman, the amenities are unmatched. Beyond the 3-car attached garage sits a detached 28' x 36' heated shop—a professional-grade space featuring 11'6" ceilings, a car hoist, and 2 piece bath. With trail access to Naramata and Big White, your adventures begin the moment you leave your door. Located steps from South Kelowna Elementary and the bus stop at the end of the driveway to Middle and High School. This isn't just a residence—it is a legacy. (id:6769)
