Introducing the Family Spaces 24 by award-winning Cantiro Homes, a thoughtfully designed steel-frame home ideal for modern family living. The open-concept main floor welcomes you with an impressive foyer featuring an open-to-below design, a spacious kitchen with stainless steel appliances, dining area, convenient bar, comfortable living room, dedicated den, and half bathroom. Upstairs, you'll find a generous primary bedroom complete with a 5 piece ensuite, two additional bedrooms, a spacious family room, dedicated kids' room, laundry room, and full bathroom. The tandem garage design offers exceptional space and added functionality. Enjoy a selection of upgraded features, including an electric fireplace, 9' foundation, and elegant glass railings. Finished in the Timber interior style with a Nordic Fusion exterior elevation, this home combines modern design, quality craftsmanship, and functional family living.
