

4379 Painted Turtle Drive Vernon British Columbia

Alexis Park

\$1,439,000

Modern architecture. Elevated views. Craftsmanship without compromise. This Turtle Mountain build by Enns Homes is designed to stand apart. Set at the end of a quiet cul-de-sac in Vernon, the home makes an immediate impression—clean lines, a striking façade, and expansive glass framing uninterrupted views of Okanagan Lake, surrounding vineyards, and the Grey Canal Trail below. Inside, soaring ceilings, walls of windows, and seamless flow through the main living space create an environment that feels refined yet effortless. The kitchen is built for both everyday use and entertaining, complete with a butler's pantry and direct access to a covered deck that keeps the view front and centre. The primary suite is privately set apart, designed with both outlook and function in mind. A floating dual vanity anchors the ensuite, while heated floors add comfort beneath a fully tiled, glass-enclosed wet room combining the shower and freestanding tub beside a large picture window bringing in natural light and views. The walk-in closet offers generous space. A second bedroom on the main level features its own ensuite—ideal for guests—while a dedicated laundry room, powder room, and mudroom with access to the oversized garage complete the layout. Downstairs, two bedrooms, a full bath and a generous rec space are finished, while the remaining area—plumbed and ready—offers flexibility...
