Step into this working Certified Organic Farm and begin your life anew! This stunning heritage property currently produces flowers for market and has a mixed vegetable garden for crops as well. It hosts a 48 acre alfalfa field, which is leased out and managed by an awesome fellow who knows his stuff and takes care of the land. With the field taken care of and providing income, all you'll need to do is look after the gardens! The placement of crops is arranged thoughtfully and intelligently; all close to the house and easily accessible.
