Rare multi family living, or revenue helper opportunity. Great bi-level home that would be easy to suite plus a detached garage / carriage home for either extended family members or as a revenue helper. From the quiet cul-d-sac this home may look like a conventional 1980s bi-level, but this home has been completely transformed and expect to be impressed. The kitchen, eating, dining and living areas have been completely opened up and now boasts a beautiful Kekkuli Bay kitchen. The original 3 bedroom on the main floor floorplan has been converted to a 2 bedroom with a beautiful ensuite with quartz countertops and a custom walk-in shower. A 366ft carriage home has been added and is part garage / workshop and part studio suite. Great yard with lots of lawn and also a concrete basketball court. Covered rear deck with hot tub and extra storage underneath. Single attached carport and a surprising amount of parking. The lower level has a great layout for the conversion to a suite. Lots of great options for this home. A move-in ready home in a central location, close to amenities, with income potential and room to grow. 360 degree virtual tours, floorplans, site plan, and lots more information available. Open House Sunday March 8 1-2:30pm or call for a private viewing. (id:6769)
