

458 Cavell Place Kelowna British Columbia

Upper Mission

\$2,299,000

The gated entry greets you and the long driveway leads to the 7 bed, 5.5 bath family home all set on a massive upper mission lot tucked at the end of a quiet cul de-sac. 4 bedrooms on the main floor, the master has a lavish ensuite, steam shower and women's dream closet. Open concept kitchen features double wall ovens, s/s appliances, quartz counters, dual fridges, massive island with seating, pot filler and huge pantry. The lofted lounge area up top overlooking the great room is a truly unique space. There is a wet bar, a private deck, full bathroom and walk in closet up top to entertain guests or just escape the day. Lower level family room leads out to the extensive patio space with heated in ground kidney shaped pool and fountain water features. Custom built pool house was designed with a future sauna in mind. The major bonus here is the 2 bed plus den legal suite which is extremely well laid out. It has separate forced air heating, s/s appliances and 9' tall ceilings so it feels even bigger! Would be ideal for older parents to live with a family. Or rent it out? So many options with this versatile home. Another separate living space offers 1 bedroom and a private full bath on the lower floor. Built in sound system both inside/out, triple garage, alarmed, water softener and so much more! The triple garage is over 1500 sqft, has a drive through rear bay door to access the...
