Proud to present a true Penticton landmark -- the iconic Keyes House (1912), a late Victorian residence featured on the cover of Penticton in Color Photos. This Queen Anne Revival masterpiece showcases steeply pitched paired gables, intricate trusses, and timeless architectural character throughout. Offering 4 bedrooms and 3 bathrooms, this home is filled with natural light, soaring ceilings, and preserved heritage charm. The main floor features a flexible bedroom and bath -- ideal as a primary on the main or guest suite (this section previously operated as a successful AirBnB), a cozy living room with gas fireplace, den, and a bright kitchen that flows into the family and dining areas. An additional main floor bath with shower sits beside the laundry for convenience. French doors open to a spacious deck and gazebo overlooking the beautifully landscaped .18 acre corner lot. Upstairs you'll find 3 more bedrooms and a full bath with classic clawfoot tub, plus a top-floor flex space perfect for a studio, retreat, or creative haven. Hot water radiant heat adds comfort year-round. Outside, enjoy mature trees, garden boxes, lane access to a double garage, and ample parking including space for an RV. Fresh paint inside and out enhances the home while preserving its historic integrity. Located just 3 blocks to the SOEC hockey rinks, 1 block to Kings Field, and steps to downtown rest...
