Uplands/Redlands

\$1,175,000

Located in the Uplands/Redlands neighbourhood on nearly a 1/4 acre, this move-in-ready home offers 2,711 sq. ft., 5 bedrooms, and 3 bathrooms with room for a growing family to spread out while still enjoying spaces designed to bring everyone together. The heart of the home is the extensively renovated kitchen, completed in 2019, featuring a large island that naturally becomes the gathering place for family meals, homework sessions, and entertaining friends. Large windows capture views of the Okanagan valley while filling the home with natural light. Outside is where this property truly shines. Designed for year-round enjoyment, the backyard features a heated saltwater pool installed in 2017, a built-in hot tub, covered timber gazebo, and fully irrigated landscaping completed in 2021. Whether it's summer pool parties, family barbecues, or quiet evenings under the gazebo, this is an outdoor space built for making memories. A single attached garage, RV parking, mature landscaping, and a location close to schools, parks, and amenities complete the package. Beautifully updated, meticulously maintained, and completely move-in ready, this is the family home buyers have been waiting for. (id:6769)
